

SPACE HEATERS NEED THEIR SPACE

Space Heaters can warm up a small area quickly, but they can cause a fire in a short time is

To prevent a fire at home, follow the 3-foot rule for space heater safety

Certification. Make sure the heater you buy carries a safety certification label from an independent testing organization, such as UL

Shut-off features. A smart sensor that shuts off a heater when it overheats is a must. You'll also want a tip-over switch that does the same if the heater is knocked over.

DON'T LET A FIRE LIKE THIS HAPPEN IN YOUR HOME OR BUISNESS
